

WHOLE NO. 417

WHOLE NO. 417

deasland that the Corporation of the City of Toronto intend endeavouring to obtain legal authority to recover the above mentioned sum of \$12,547 10, respectfully and earnestly praying your honourable House to grant no further powers to the Corporation.

"And your petitioners as in duty bound
ever pray."

The council went into committee of the
whole upon the petition—Mr. WHEELER

After considerable discussion the committee rose and reported the petition adopted. On the WARDEN taking the chair the petition was carried by the Council.

Mr. MURSON moved, seconded by Mr. JAMES, that the address adopted by the Council to the widow of the late respected Ward be presented to her in the name of the Council by D. Reesor, Esq., the present Warden.

THE PETITIONS TO PARLIAMENT.

representing the United Counties of York and Peel in Parliament the several petitions adopted by this Council at the present session, and request them to use their influence in obtaining the object prayed for by the said petitioners.

The Council then adjourned till the first Monday in June next.

From the American Agriculturist,

Break the Calves and Colts.

—

‘Train up a child in the way he should go
and when he is old he will not depart from it’
is just as applicable to the bovine and equine
tribes, as to the genus homo. The truth

the old adage that, 'it is hard to learn old dogs new tricks,' is not illustrated in the canine species alone. Not long ago we asked one who was driving a pair of oxen, how early he broke them to the yoke. 'Why,' said the youth, 'they were always yoked.' 'But,

is no trouble, but on the contrary, fun for the boys, at least, to train up calves and colts in the way they should go, by beginning the work before they are three months old.

We protest against putting any animals, be man or other, to severe labor before maturity of muscles is attained, but find it is the custom of the Spaniards to break, yoke, and drive, an advantageously practiced with colts and calves of the tenderest age. On

who has not tried it will be surprised at the ease with which young animals may be taught to obey. We have had colts not six months old that would come at the call of their names, kneel at the bidding, lift a fore foot to the hand to be shaken when bidden.

‘good morning,’ lay the head upon one’s breast when asked if they loved their master, lead the halter as readily as an old horse, and submit to the mock saddle, to beating the hoof with the shoeing hammer, and so of other manipulations. And these colts never know what it means to

We have seen calves driven about singly and side by side, yoked and unyoked, made to change places, and sent away from the driver and called back again by simple word of mouth.

We have also seen them get down upon their knees, lift up any desired foot, etc., with the utmost readiness. All this was accomplished by kind systematic treatment when growing up. A friend we were just conversing with tells us of the fine sport he used to have of

to moonlight evenings, when a boy, with a regular
steer team made up of nearly all the calves in
the neighborhood. Fifteen to twenty pairs
were sometimes brought together, fitted with
rude light yokes, and the whole attached to a
light sled, and driven along in great ease.

Mr. [unclear] was difficult to say whether the calves or the boys enjoyed the sport most. Such a team was far from presenting a mean appearance. And these exhibitions were of three fold benefit. The boys were not only kept from

little skill was developed in constructing
ature yokes and other tackling. The ca.
were being trained for useful docile working
oxen. And further, the extra currying and
other care in feeding which each boy was like

We have given these illustrations not to recommend such unusual training for general practice, but to indicate what may be done.

and to impress the suggestions that a moderate degree of *early* training may be adopted by all, with decided advantage. How much better this course every way, than the usual method of allowing young animals to literally run wild until they are four years old, when

of The Washington correspondent of

the New York Times says a company has been formed there for manufacturing wine of the wild grape, with a capital of \$100,000. Hon. Amos Kendall is the principal stockholder.

—Messrs. Galt and Smith, Minister of Finance and Postmaster General, returned from Europe by the North Briton. We may therefore safely conclude that Parliament will be convened before the close of this month.—

Leader. WHAT'S IN THE WIND!—Last week Mr. Daly M.P.P., and Mr D. G. Miller of Woodstock, held forth in this place on behalf of the Government, and next week Mr Ogle R. Gowan is to do the same thing. Wood-

ATTENTION.

The figures at the right of the address on each paper, indicates the indebtedness on the 1st of Jan.

JANUARY, 1880.
Thus H. Blake, 150, means that H. Blake owes \$150.00, to pay for the current year up to July 1880; or if H. Smith, 5, means that J. Smith has paid up. We hope this system will have the effect of lessening the large amount of indebtedness in this office.

New Era.

Newmarket, Friday, Feb. 17, 1880.

General Summary.

Parliament will meet for the "despatch of business" on the 23rd inst., at Quebec. Proclamation of proceedings not yet announced by Government organs.

Mr. Bone is flourishing, and he says he will sell at prices to suit the times in order to dispose of the present stock before his spring goods arrive.

Dr. Bentley has announced that he is prepared to extend the discount to 10 per cent on cash purchases above a certain amount. Dr. Bentley's stock is considered a No. 1, by the fair sex.

We understand a company is forming in Newmarket for the manufacture of Butler's Canadian Family Sewing Machines, with a capital of about \$3,000, with every prospect of success.

King Council held a meeting at Kitchener on the 15th inst., and transacted considerable business. A report will be given next week.

Mr. R. H. L. of Saratoga, N. Y., delivered a very interesting lecture in the U. S. S. Room, on Wednesday evening last. Subject, "The Foundation of Success." We were sorry to find the audience limited, as the lecture was an exceedingly instructive one.

Post Master General Smith, according to a recent issue of the *Colonist*, has engaged in the Stationary business; he sells envelopes at 50 cents per 100, although they can be purchased anywhere else for 25 cents. Grand speculation. We like the convenience of stamped envelopes—but that is paying a little too dear for the white.

On Wednesday last we observed, passing through our village, a large amount of machinery destined for the "Northern Woolen Mills," now being erected by W. A. Clark, Esq., at Thornbury. We understand the estimated proprietors purposes having the Mill in "full blast" in time for the Spring trade—and we sincerely hope he may, and that it may prove equally advantageous to both Mr. Clark and the section of country in which it is being erected.

We have received, in view of carrying out suggestions made by a Toronto Correspondent to the *New Era* some time ago, in reference to "erecting a suitable testimonial to our appreciation of the worth of our fair representatives, two or three more letters urging us to become Secretary and Treasurer to raise fund and open a subscription list, and we would rather suggest that a meeting be held as soon as convenient, and at that meeting electing a Secretary-Treasurer, with a good working committee to carry out the object contemplated. It is probable that a meeting of R-formers will shortly be held, with the view of forming a Branch Association in conformity with the request of the Toronto Convention, and arrangements might be made to take the matter up on that occasion.

Public Dinner and Presentation to Dr. Hunter.

A public dinner was given and presentation made to Dr. Hunter, of this Village on Tuesday evening, the 10th inst. The edifice was provided in good style by Mr. Thompson—and a town-party to the number of between 60 and 70—together with a large number of the sister Villages and immediate vicinity were present.

ALFRED BUTLER, Esq., occupied the chair, and Mr. Wm. Trent the Vice-Chair. The company assembled the anticipated success of the movement, and the party was the most pleasant and social gathering we have had the pleasure of attending for many a long day. Although, in reply to the various toasts offered, a number of gentlemen were called upon to deliver the meeting, after the removal of the cloth, yet not a single sentence was uttered calculated to give offence to any one. The real object being to mark and testify the people's approval of Dr. Hunter's course and policy during the past year, every sentiment in relation to municipal matters was confined to this; and we believe no individual left the entertainment dissatisfied with anything said or done during the evening.

The usual loyal toast of the Queen was first given from the chair.

Song—Mr. Hutchcroft—"Rule Britannia."

Then followed "Prince Albert and the Royal Family;" after which the representation of the Majesty in this Colony, the "Governor General."

Song—Mr. Hutchcroft—"English Gentleman."

The Chairman next gave the "Army and Navy;" accompanied by a few appropriate remarks.

Song—Mr. W. S. Wallis—"Red, White and Blue."

The Chairman said the next was the toast of the evening—"Our Guest;" and in offering this toast he would make a few remarks. He felt honored in being called upon to preside at so large a gathering as was assembled here this evening—particularly when we see among them many who take the most active part in the public affairs of the Village. He had long been proud to claim Dr. Hunter among his friends, and the business transactions between them had only served to increase his confidence and strengthen his friendship; and such, he would venture to say, was the experience and sentiments of nine-tenths of all with whom he had come in contact. As a neighbor we find him ever ready to assist, and as a public man, he is ever ready to devote his time and means for the public good. Dr. Hunter has not only been a friend to the rich, but a friend to the poor—not only had respect for the wishes of the wealthy, but guarded faithfully the interests of the tradesman and the mechanic. Through his success in life he has forced himself into a position of comparative ease; but he had never made him proud or bigoted. Such a man we can respect—we can honor; and he was glad to see so many here this evening, with cordial feelings of friendship, ready to acknowledge true merit. It was a demonstration of an ordinary character, and one, let others think and say what they please, of which any man might well feel proud—giving unmistakable evidence that the people of Newmarket could and did appreciate true merit. The chairman was frequently applauded while making his remarks. The toast was then drunk with all the honors.

The Chairman then presented Dr. Hunter a very handsome golden headed Cane, bearing an inscription, showing by whom given and for what purpose, accompanied by the following—

ADDRESS.

To Dr. J. J. HUNTER.

Sir:—In presenting you with this Testimonial which has been procured by the action of a large number of your neighbors, we would say that we have here, actually and simply by a cordial desire existing among all, also that your strenuous exertions on behalf of the Village, during the past year, have not been unappreciated by us.

Deeply sensible of the great advantage accruing to the Village through having its affairs administered by one like yourself, possessing such ability and the disposition to do so in a satisfactory manner, and feeling that we cannot expect to possess the services of a man combining these requisites, we have made the present an opportunity for not only presenting you with a slight but permanent mark of our esteem; but also, to assure you of our conviction, that owing to your untiring efforts, while our Chief Magistrate, to foster every enterprise which seemed to promote our interests and the progress of the Village, you have compelled obedience to the laws of the community, and according to Newmarket in the community, and much enhanced. And we believe that we express the feeling of the Village when we say, that it is with unforgotten regret that we do not again see you in the position which last year you filled with honor to yourself and advantage to the Village.

(Signed) A. BUTLER.

On behalf of subscribers to the Testimonial, Newmarket, Feb. 9th, 1880.

Dr. Hunter rose amid loud applause and replied as follows:

MR. CHAIRMAN AND GENTLEMEN—

I sincerely thank you for presenting me with this token of your esteem, and for the sentiments you have been kind enough to express respecting my conduct as a public servant during the past year. Under ordinary circumstances this expression would have been most gratifying; but after what took place in our Council at its first meeting, the effect of which was a virtual condemnation of the very conduct you now so cheerfully endorse, I do feel most sensibly your kindness. When first placed at the head of this Municipality I was not insensible to the responsibilities assumed. Evils at that time of the most alarming nature existed amongst us—the most prominent of which, were profligate swearing, rowdiness and drunkenness. Notwithstanding the exertions of our temperance friends, there had increased so fearfully in our midst as to be not only corrupting the minds of our youth, but endangering the reputation of our Village. Believing that I would be acting in accordance with your wishes, and that I would be sustained by the moral influence of public opinion, I felt justified in taking strong grounds against these vices, and in favor of peace, order and sobriety. And, gentlemen, it is most pleasing to me to be assured by you this evening, that I formed a correct estimate of the character of the community over which I then had the honor to preside. Having resigned among you for a period of fifteen years, and my interests closely identified with yours, I trust you will ever find me ready to take a lively interest in every enterprise which tends to advance the prosperity of our village, whether in a commercial, intellectual, moral or political point of view. We occupy a position of which we have reason to feel proud. From being a place of comparative insignificance our village has risen during the last few years, to be regarded as the centre of business and enterprise in this section of the province; but rest assured this position has not been attained by the action of one or two, but by the combined wisdom, energy and economy of the whole people. Let but the policy of the past be continued in future, and we have no reason to fear for our ultimate destiny. You have expressed a regret that I was not elected to the office of Reeve for the present year. To a certain extent I share with you in that feeling. After this demonstration, so far as I am personally concerned, I do not regret; but for many reasons, of a public nature, to which it is unnecessary now particularly to refer, I desired to have that honor conferred upon me. The Council, however, it is presumed on public grounds, thought it not advisable, and you and I must submit to their decision. But most sincerely do I hope that the gentleman who now fills that office will feel it his duty to adopt the policy you have this evening so decidedly stamped with your approval, and that in every respect he will so discharge his duties as to afford satisfaction to all.

for satisfaction to all. I must again thank you, gentlemen, for this honor, and I accept with much pleasure, this token of your esteem. It will ever be regarded by me as a choice treasure, and shall serve to stimulate me more than ever to discharge with fidelity every public trust in future committed to my care. Dr. Hunter concluded amid loud cheers, and frequently during his remarks was loudly applauded.

The Vice-Chairman proposed the next toast, accompanied by a few well-chosen remarks. Then followed in succession, "Our Sister Villages;" "The Reeve and Corporation of Newmarket;" "The Medical Profession;" "The Bar;" "Our Agricultural, Commercial and Mechanical Interests;" "The Press;" "The Fire Company;" &c. In acknowledging the toasts, speeches, quite in keeping with the occasion, were made by Drs. Pyle, Bentley and Nash; and Messrs. Trent, Allan, Lynd, Ashton, Butler, Bishop and others, and several songs sung by Messrs. Wallis, Hutchcroft, Yatesman and Ledbetter.

On the whole, the party was a very pleasant one indeed, and very much enjoyed whether so large a number of the mechanics and business men of the village could be got together, at the same figure, for almost any other purpose. One thing which contributed largely to the enjoyment of the occasion was the fact that no allusion of a personal character was made to anything in the past, by any of the speakers, while every sentiment had a direct bearing upon the object in view; and we sincerely hope, with the gentlemen who proposed the toast of "the Corporation," that all succeeding Reeves may earn and receive the well-merited encomiums conferred upon Dr. Hunter.

The company broke up about midnight.

Dr. Ryerson's County Convention.

Pursuant to announcement the Chief Superintendent held a County Convention in Newmarket, on Monday last. The meeting took place in the District School House, and that large and commodious building was filled to excess.

Rev. S. F. Ramsey was called to the chair, who in his usual graceful and fluent style, introduced Dr. Ryerson to the meeting.

The Chief Superintendent then came forward and addressed the assembly for about one hour and a half, commencing with the establishment of the present school system, and giving its rise and progress; also, the ultimate objects and aims of the system. He then said there were three topics which he had usually brought before other conventions, and upon which he desired the meeting to express an opinion, viz:—the propriety of altering the position of Grammar Schools so as to make them free for the County—2nd, Free Common Schools—and 3rd, compulsory attendance. The proposition, in regard to Grammar Schools, as near as we could understand it, was this: The Government Grant to each Grammar School to be \$100, and the County Council to raise a corresponding sum by direct taxation; the balance required to sustain the school and keep it in working order, to be borne by the Village or Municipality in which said Grammar School was located, or by an entrance fee charged upon (free) scholars who may attend from the Village. The people to elect three and the County Council to appoint three Trustees each; that is, the people of the Municipality in which such Grammar School was located. This plan, although unexpected, caused considerable discussion, as well as, did the other points referred to. Finally the following resolutions were adopted:—

Moved by Rev. Thos. Baker, and seconded by Mr. Thos. Nixon, and

Resolved: That the Grammar Schools of Canada, would be made much more efficient, by making the terms of admission to them, similar to that of the Common Schools; and that it is desirable that the County Council should provide the necessary funds, in connection with the Government, and that the children from beyond the limits of the City, Town, or Village Corporation be admitted without charge.

Moved by Mr. Thos. Nixon, and seconded by D. Sutherland, Esq.

That it is the opinion of this Convention that the time has now arrived when the schools of Upper Canada should be open to the children of all. He it therefore resolved that the Legislature be requested so to amend the School Act so that the public schools of our country be made free; and that vagrant children be compelled to attend some school.

Moved by Mr. Thos. Nixon, and seconded by Mr. Menzies

That it is the opinion of this Convention that our School Book system be improved by revision in which revision the different sciences treated in their own right to be brought up to the present advanced state of these sciences; and furthermore that a series of lessons be introduced on the sciences of Political Economy and Moral Philosophy; and that the Books be made to partake of a National character as possible.

Moved by Dr. Bentley, and seconded by Mr. Thos. Nixon,

That it is the opinion of this Convention that County or Circuit Superintendents should be appointed in place of the present Local or Township Superintendents and that these Officers ought to be in connection with the Educational Department, and that they should be required to be possessed of a requisite amount of scholastic attainments.

Newmarket Council.

The above Council held a meeting on Monday last. All the members present—the Reeve in the chair.

Applications were made from Messrs. Mosier, Knight, and Mrs. Forsyth, for license to keep houses of public entertainment—also offering the names of gentlemen as their sureties.

Applications received and sureties accepted, on motion of Mr. Smith seconded by Dr. Hunter.

The Engineers of the Fire Brigade then submitted their first report. From that report we learned that the Fire Company was composed of 37 men: Hook and Ladder Company 17 men, including officers. The engine was reported as not in working order for want of hose. The Hook and Ladder Company want Hooks, Ladders, Axes, &c., and also Carriages. The whole Department want dresses, badges &c. On motion of Dr. Hunter, seconded by Mr. Wallis, the Council went into committee of the whole on the report.

Mr. Davison in the chair.

After considerable discussion, Dr. Hunter moved that the report be adopted, and a committee, consisting of Messrs. Wallis, Smith and the mover, to carry out the objects as far as possible.

The Committee rose and the Council adopted the Report.

Mr. Smith introduced a By-law to provide for appointing Chief Engineers of the Fire Brigade. The Council went into committee of the whole on said By-law—Mr. Wallis in the chair.

The names filled in the blanks were those of the old board, viz:—Mr. Joseph Elvidge, Chief, and Messrs. T. Bishop and R. Brobie, assistants.

Committee rose and the By-law was read a third time and adopted.

Dr. Hunter gave notice that at the next meeting of the Council he would introduce a By-law to open streets where being closed was an injury to private property; and that other streets not at present wanted, be let for occupation by public tender.

The Clerk reported that he had made enquiry regarding the rent of the room for the next year—to the effect that it would cost \$24.

On motion of Dr. Hunter, seconded by Mr. Wallis, the offer was accepted.

Dr. Hunter moved for leave to introduce a By-law to appoint Municipal officers—Leave granted.

By-law read a first time and the Council went into Committee of the whole on the same—Mr. Wallis in the chair. The blanks were filled with

Mr. R. Wallis—Inspector.
Mr. Edward Elvidge—Assessor.
Mr. J. W. Huger—Collector.
Mr. Thos. Connon—Post-Office Keeper.

Committee rose and the By-law read a third time and adopted.

Messrs. Wallis, Smith and the Reeve were then appointed a Committee to carry out the resolution adopted at the Town Meeting.

The Council then adjourned.

Whitechurch Council.

The above Council met at Mr. Chas. Case's, Aurora, on Tuesday last. All the members present—the Reeve in the chair.

Minutes of last meeting read and confirmed.

The Reeve introduced a By-law to provide for carrying out the prayer of a petition presented last meeting. The By-law was passed through various stages and adopted.

Mr. Harrison presented a petition from R. B. Irwin, and others praying for the erection of a Town Hall in the Township.

The Auditor's report of last year's Account, together with the Treasurer's statement of Liabilities and Assets, was then presented and finally audited.

Subsequently the Clerk was authorized to get them printed in the usual form.

The Reeve then introduced a By-law to provide for the appointment of certain Township officers.

The Council went into committee of the whole on the same—Mr. Harrison in the chair, when the following parties were appointed Municipal officers for the ensuing year:—

ROD REEVES.

Messrs. John Taylor, Wm. Williamson, Jas. Mosley, John Jernan, Daniel Hunter, John Richardson, Wm. Sedon, Joseph Bogart, Casper Wideman and Francis Kelly.

FRANCE VIEWERS.

Messrs. John Gibson, Jonathan Widdifield, Philip Bogart, Chas. Brodie, David Baker, Abram Stouffer, Sen. John Wagg, Eleazer Lewis, Sen., Clayton Webb, Comely Randall, Samuel Rose, Robt. Trauner and Jas. Brown, 18th Con.

OVERSEERS OF HIGHWAYS.

1st Con.—Messrs. E. Kelly, Adam Graham, Jas. Mosley, Henry Trent, Clayton Webb, Eleazer Lewis, Sen.

2nd Con.—H. Q. St. George, Wm. Cunningham, George Graham, John Usherwood, Jas. Prout, Peter Pearson.

3rd Con.—Adam Clark, Peter Baker, Geo. Grey, Jesse Lloyd, Robt. Lyon, John Peten, Alfred Leamy, J. S. Wilkins, and Wm. Hollingshead.

4th Con.—Walker Lloyd, Wm. Harding, Pearson Starr, Henry Hooper, Jos. Gould, Arnold Haight and Mordecai Starr.

5th Con.—Jos. Shaffer, John Scott, Ammon Robinson, Amos Bowman, Edward Randall and Robt. Dewsbury.

6th Con.—John Hooper, Wm. Bell, John Clark, David Lyon, Obad Widdifield, and J. Taylor.

7th Con.—Robt. Wright, Wm. Musselman, Thos. Steel and Geo. Bigham.

8th Con.—Samuel Brownberger, John Falkner, Jacob Johnson, Arthur McFarland, John Swires, Robert McCormack and Robt. Redhead.

9th Con.—John Davis, Thos. Paisley, Thos. Farless, Martin Dixon, Chas. Reid and Wm. Sedon.

10th Con.—Abram Stouffer, David Armstrong and John DeGier.

Then Line—Casper Wideman and John Humil.

Stouffville—Alexander Sangster and Jas. Johnson.

The committee then rose and the By-law was read a third time and adopted.

The Council then took up the question of granting licenses to keep houses of Public Entertainment; also entered upon a petition from Wm. Christieson, and others, praying for the reduction of Tavern License Fees.

The petition was received and laid upon the table for further consideration. During the discussion Mr. Harrison moved that the license be lowered to \$40; including the Government allowance but forgoing to get a second, the question dropped.

On motion of Mr. Harrison, seconded by Mr. Randall, the surrogates were accepted, of Arthur Stouffer, Alexander Sangster, Eli Connor, Wm. Christieson, Jonathan Randall, J. W. Kiepp, John McVain, Wm. Brown, Chas. Cass and Joseph McFarland, as Hotel Keepers.

Petitions presented from Richard Macell and others of Aurora, praying for the repeal of the By-law prohibiting statute labor in that village. Prayer granted and notice given for the introduction of a By-law at next meeting.

A Petition was presented from Robt. R. Davis and others, praying for aid on road between Lots 16 and 18, in the 2nd Con. Deferred.

A Petition from School Section No. 4, praying for a dissolution of said section with Markham and to be annexed to Section No. 7. Deferred till next meeting.

Several petitions were then presented in favor of erecting a Town Hall.

Council went into committee of the whole on the same, Mr. Macklem in the chair.

In Committee, a resolution was adopted, appointing Messrs. Robt. Ashton, Jared Lloyd and Daniel Hunter, as a committee to receive offers for the most convenient place for the erection of a Town Hall, and report next meeting of Council.

The Committee rose and the Council adopted the report.

The Council then adjourned till the 17th

of April—then to meet at Sangster's Hotel, Stouffville.

Mr. Smith introduced a By-law to provide for appointing Chief Engineers of the Fire Brigade. The Council went into committee of the whole on said By-law—Mr. Wallis in the chair.

The names filled in the blanks were those of the old board, viz:—Mr. Joseph Elvidge, Chief, and Messrs. T. Bishop and R. Brobie, assistants.

Committee rose and the By-law was read a third time and adopted.

Dr. Hunter gave notice that at the next meeting of the Council he would introduce a By-law to open streets where being closed was an injury to private property; and that other streets not at present wanted, be let for occupation by public tender.

The Clerk reported that he had made enquiry regarding the rent of the room for the next year—to the effect that it would cost \$24.

On motion of Dr. Hunter, seconded by Mr. Wallis, the offer was accepted.

Dr. Hunter moved for leave to introduce a By-law to appoint Municipal officers—Leave granted.

By-law read a first time and the Council went into Committee of the whole on the same—Mr. Wallis in the chair. The blanks were filled with

Mr. R. Wallis—Inspector.
Mr. Edward Elvidge—Assessor.
Mr. J. W. Huger—Collector.
Mr. Thos. Connon—Post-Office Keeper.

Committee rose and the By-law read a third time and adopted.

Messrs. Wallis, Smith and the Reeve were then appointed a Committee to carry out the resolution adopted at the Town Meeting.

The Council then adjourned.

Whitechurch Council.

The above Council met at Mr. Chas. Case's, Aurora, on Tuesday last. All the members present—the Reeve in the chair.

Minutes of last meeting read and confirmed.

The Reeve introduced a By-law to provide for carrying out the prayer of a petition presented last meeting. The By-law was passed through various stages and adopted.

Mr. Harrison presented a petition from R. B. Irwin, and others praying for the erection of a Town Hall in the Township.

The Auditor's report of last year's Account, together with the Treasurer's statement of Liabilities and Assets, was then presented and finally audited.

Subsequently the Clerk was authorized to get them printed in the usual form.

The Reeve then introduced a By-law to provide for the appointment of certain Township officers.

The Council went into committee of the whole on the same—Mr. Harrison in the chair, when the following parties were appointed Municipal officers for the ensuing year:—

The Council then took up the question of granting licenses to keep houses of Public Entertainment; also entered upon a petition from Wm. Christieson, and others, praying for the reduction of Tavern License Fees.

The petition was received and laid upon the table for further consideration. During the discussion Mr. Harrison moved that the license be lowered to \$40; including the Government allowance but forgoing to get a second, the question dropped.

On motion of Mr. Harrison, seconded by Mr. Randall, the surrogates were accepted, of Arthur Stouffer, Alexander Sangster, Eli Connor, Wm. Christieson, Jonathan Randall, J. W. Kiepp, John McVain, Wm. Brown, Chas. Cass and Joseph McFarland, as Hotel Keepers.

Petitions presented from Richard Macell and others of Aurora, praying for the repeal of the By-law prohibiting statute labor in that village. Prayer granted and notice given for the introduction of a By-law at next meeting.

A Petition was presented from Robt. R. Davis and others, praying for aid on road between Lots 16 and 18, in the 2nd Con. Deferred.

A Petition from School Section No. 4, praying for a dissolution of said section with Markham and to be annexed to Section No. 7. Deferred till next meeting.

GUM-COATED FOREST PILLS as on June 1, all the following disorders are permanently cured—

Dyspepsia and Indigestion.—A box of the Forest Pills, and a bottle of the Wine, will cure the most distressing forms of this complaint.

Acute and Chronic.—One or two doses of the Pills, and a bottle of the Wine will break the mucus and cure the patient in all cases, when the directions on the bottle are adhered to.

Dropsical Complaints.—From one to three boxes of the Pills, and three bottles of the Wine.

Disorder of the Kidneys.—The Forest Pills have proved highly efficacious in this disorder. One to two boxes of the Pills, at three or four bottles of the Wine, are sufficient to completely cure the worst cases.

Debility, Night Sweats, Nervousness, and a weak state of the Constitution.—The Forest Wine is a popular remedy for all these complaints. One to three bottles cure the worst case without the use of the Pills; but when the complaint is accompanied by some other disorder the Pills will be required.

Rheumatism.—The efficacy of the Forest Remedies in Rheumatism is very singular. Some of the most distressing cases I ever saw have been cured by them in ten or twelve days time.

Bilious Disorders and Foul Stomach.—On a purgative dose of the Forest Pills will cure or

Peters.—One or two purgative doses will cure these.

Coughs, Colds, &c.—One box of the Pills and a bottle of the Wine will break up and cure the most severe colds, coughs, and pains in the breast.

Ulcers, Boils, Blotches, Scabbed Head, Ringworm, Erysipelas, Salt Rheum, Sore Eye, and every kind of Humor.—These complaints arise from one common cause. Impure blood. Absolutely nothing but the Pills are required for the cure of all these disorders, and if both remedies are used, two bottles of the Pills, and two or three bottles of the Wine will cure the very worst cases, and frequently

less than half the quantity.

Jaundice.—Two boxes of the Pills, and many bottles of the Wine, cure the worst cases of Jaundice.

Obstinate Obstructions, produced from colds and weakly constitutions. A few doses of the Forest Wine, the most disagreeable form of venereal complaints, and if it is followed up a few weeks, these dangerous will not occur again. The Wine exactly suits the female constitution, and gives strength, vigor, and blooming health. Over a million boxes and bottles have been sold within the last two years, in the United States and Canada. Letters and certificates to the amount many thousands, have been received, testifying to the cures and good effects of these remedies.

Forest Wine is in large supply, bottled and put up in six, six, and six bottles for five, ten, and twenty dollars.

Forest Hills, twenty-five cent per box. General depot, 61 Walker-street, New York; and kept by one or more respectable druggists in almost every city and village in the Union and British Colonies.

N. W. BOGART, Newmarket.
CHARLES DOAN, Aurora.
JOSEPH DEACON, Bradford.

And for sale by all druggists and dealers in medicines generally, throughout the country.

The above mentioned goods from the respective proprietors.

Amusements.

Why must a man without hands be so very generous?—Because he cannot hold his tongue.

To cure deafness, tell a man you've come to pay him money. It beats accounts all hollow.

A Minister noted for combining the somewhat ludicrous professions of preacher and money lender, was making a prayer, in which was the following petition—"Grant that we may have more interest in heaven!" "Don't do it!" exclaimed one of the congregation, "don't do it! The old snorer gets five per cent. a month now, and that's enough."

A politician who owns a lead mine at Shulburgh, Wis., was a candidate for the Legislature. On election day he hired fifty-three of the opposite party to work in his mine; after he got them all 140 feet below the surface, the lender was drawn up to have some "new rounds" put in it, and he neglected to return it till the polls were closed, which resulted in his election by fifty-two majority.

Vice-Versa!—As a canal boat was passing under a bridge, the captain gave the usual warning by calling aloud, "look out!" when a little Frenchman, who was in the cabin, obeyed the order by popping his head out of the window, which received a severe bump, by coming in contact with a pillar of the bridge. He drew it back in a great pet, and exclaimed, "Deso Américains say, look out! when they mean, look in!"

A well meaning but intemperate divine, whose furious denunciations of the shortcomings of his flock fully laid him open to the commentary passed on Charles Fox, that though he knew how to hit the right nail on the head, he generally hit it till he split his work, once more impelled to ask one of his congregation what he thought of his philippics. "Sir," said his friend, "I think that good advice is like brandy and water; a capital thing in its way, but nobody likes to swallow it scalding hot."

1859. The Globe. 1860.

In soliciting the increased support of the Canadian public for the seventeenth volume of the "Globe," the publisher has to state that nothing shall be left undone to render the journal worthy of the high reputation it has earned in past years. A new and beautiful font of copper-plate type, cast especially for the "Globe," and the celebrated founder of Messrs. James G. Cowan and Sons, New York, will sustain the typographical credit of the establishment—and the aid of an enlarged corps of Editors, Reporters, and Correspondents will assure to the readers of the "Globe" all that is interesting in News, Politics, Literature, and Commerce.

During the coming year, the "Globe" will continue to pay all that attention to the public affairs of the province which has secured for it its present position. The "Globe" is acknowledged by all parties to be one of the great changes in the history of the Province, and the "Globe" will seek to influence for the benefit of the people at large. It will advocate such a change in the constitution as will give to Upper and Lower Canada the control of their own local affairs, and will give general matter to a joint authority of simple and inexpensive form. The necessity of imposing such checks upon Parliament and the Executive as will prevent the squandering of money and the mismanagement of the public funds, will be earnestly insisted upon. The "Globe" will advocate the Voluntary Principle—Education, elementary and collegiate, free from sectarianism—Incorporation of the Hudson's Bay territory into Canada—A Bankruptcy Law for the relief of the honest debtor—Improvement of the Public Lands—Recreation of the "Treaty with the United States"—the improvement of Canadian agriculture—economy in every branch of the public expenditure, and generally every measure which tends to the improvement of humanity in religion, morals, and material prosperity.

During the next six months, in the constitution and management of the people, as well as in Parliament at Quebec, many of these subjects will be discussed, the more vital and important of them with an earnestness and vigor rarely before witnessed in this Province. As a promoter as well as a recorder of the movement of the day, the "Globe" will possess extraordinary interest for all classes of readers, and the friends of progress are requested to aid in extending its circulation among the masses of the people.

The editorial conductor of the "Globe" can be best estimated by the uninterrupted success that has attended its publication. But a constitutional crisis demands further exertion in that direction, and it will be supplied. In regard to news fresh efforts will be used to supply to the readers of the "Globe" the earliest and most copious intelligence from all parts of the world. Correspondence is received from Great Britain, British Columbia, the North West Territory, and all that transpires at home and in the United States is diligently recorded. Special attention is devoted to commercial intelligence; the markets are reported more fully than in any other journal.

A large space is devoted to agricultural subjects, and everything which tends to the development of the most important branch of Canadian industry receives special attention. THE DAILY GLOBE is published at four o'clock every morning but Sunday, and is despatched by the early trains to all parts of the country. It is a very large paper, containing a vast amount of news, interesting intelligence, and general information of the latest and most interesting character.

Any person sending the "Cash for Five Tri-Weekly Globes" will be entitled to an additional copy free.

THE TRI-WEEKLY GLOBE is issued every Monday, Wednesday, and Friday, at \$4 per annum, payable strictly in advance. It is printed on a large sheet, and in its columns is given all that appears in the Daily edition, with the telegraphic and other news to the latest moment.

Any person sending the "Cash for Five Tri-Weekly Globes" will be entitled to a free copy.

Newmarket, February 18, 1884. 1c18

NEW TREATMENT.

Buffalo Medical Dispensary,
ESTABLISHED FOR THE CURE OF
Dyspepsia, General Debility, Heart and Lung, Scrophulous, Old Ulcers, Erysipelas, Great Impurity of Blood, Salt Rheum, Pimples, Fists, Itch, Liver Complaints, Kidney, Debility, &c.; Canker, Sore Throat, Scrophulous Sore Throat, Asthma, Incipient Consumption, Infirmities of Youth and Old Age.
NO MERCURY USED.
DR. AMOS & SON,
(Corner of Main and Quay Sts., Buffalo, N. Y.)
ARE the only Physicians in the State who are members of the Royal College of Surgeons, London, may be consulted from 8 o'clock in the morning, until 9 at night, in every state and symptom of Disease.
The treaty they adopt is the result of upwards of thirty years' extensive and successful practice in London.
A Most Scientific Intention.
An instrument for the cure of Genital Debility, or Nocturnal Emission, more properly known as Seminal Weakness, &c., can be permanently cured in from fifteen days to two months by the use of this instrument, when used conjointly with medicine.
Young Men, take Particular Notice.
DR. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia, and New York; it has been declared the only useful instrument ever invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the excessive use of the instrument.
DR. AMOS & SON, in order to satisfy the most skeptical as to the merits of this instrument, pledge themselves that in any instance where it may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.
Persons wishing to try the above useful instrument will observe that the price with the accompanying directions recently packed and sent by express, is ten dollars.
NEW REMEDIES AND QUICK CURES.
For the Venereal Diseases, and all Private Complaints—gleets, strictures, seminal weakness, pains in the joints, affection of the Kidneys, diseases of head and throat, nose, and skin, and all those dreadful affections arising from a secret habit of youth, which produces constitutional debility, renders marriage impossible, and in the end destroys both body and mind. The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in Europe and America.
COUNTRY INVALIDS.
Persons in any part of the world may be successfully treated by forwarding a correct description of their case, with a remittance for medicine, &c.
Address DR. AMOS & SON, Corner of Main and Quay Sts., Buffalo, N. Y.

DR. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test by the most eminent physicians in London, Paris, Philadelphia, and New York; it has been declared the only useful instrument ever invented for the cure of Seminal Weakness, or any disease of the genital organs, caused by the excessive use of the instrument.
DR. AMOS & SON, in order to satisfy the most skeptical as to the merits of this instrument, pledge themselves that in any instance where it may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.
Persons wishing to try the above useful instrument will observe that the price with the accompanying directions recently packed and sent by express, is ten dollars.
NEW REMEDIES AND QUICK CURES.
For the Venereal Diseases, and all Private Complaints—gleets, strictures, seminal weakness, pains in the joints, affection of the Kidneys, diseases of head and throat, nose, and skin, and all those dreadful affections arising from a secret habit of youth, which produces constitutional debility, renders marriage impossible, and in the end destroys both body and mind. The treatment they adopt is the result of upwards of thirty years' extensive and successful practice in Europe and America.
COUNTRY INVALIDS.
Persons in any part of the world may be successfully treated by forwarding a correct description of their case, with a remittance for medicine, &c.
Address DR. AMOS & SON, Corner of Main and Quay Sts., Buffalo, N. Y.
Buffalo, March 17, 1889. 1c5
